

Continuing the benchmark of PROFESSIONAL EXCELLENCE

Sign up today to reserve your seat for the annual CDI ELECTRONICS IGNITION SPECIALIST SCHOOL, sponsored by AMTECH, the Association of Marine Technicians.

Classes are conducted in February at the CDI Electronics facility in Madison, AL.

Registration is **\$400.00** for the **40-hour** program (Trade Association discounts are available) and include:

- A tour of the CDI Electronics facility where you will observe the design and manufacturing processes that produce today's state-of-the art ignition products
- 40 hours of intensive training, with extensive hands-on troubleshooting... the most in-depth outboard electronic ignition training in the industry
- Discounts available on CDI Electronics tools and test equipment during class

Topics to be covered include

- **BASIC ELECTRICAL** (Basic concepts of current, voltage, diodes, test equipment, etc.)
- **BOAT-TRONICS 101** (Batteries, ignition systems, charging systems, power packs, coils and spark plugs)
- **OUTBOARD EFI SYSTEMS** (Principles of EFI systems, sensors, fuel flow, high performance applications)
- **M.E.D.S** (In-depth use of the MARINE ENGINE DIAGNOSTIC SOFTWARE system)
- **DIRECT FUEL INJECTION TECHNOLOGY** (Principles of DFI and HPDI engines,)

Decide for yourself...hear what graduates of CDI ELECTRONICS Ignition Specialist School have to say:

Mathew Misuraca

This was by far the best clinic I have ever attended...It's not a class for the weak; it was 40 hours of great, well laid out training. Not only was this the best clinic I have ever attended, you will definitely get your money's worth. I will most likely attend this class again just for the sake of picking up more facts for troubleshooting..."

Craig Johnson

Just got back from attending the 4 day outboard ignition troubleshooting school and it was excellent. I wish more manufacturers would take an active role in the training of all technicians and not just factory shops. Well trained, and knowledgeable independent service shops will only improve the overall quality of the entire industry..."

Jeff Spieth

I can't say enough good things about the CDI class. I have been a self-taught mechanic for the last seven years. I learned more about electronics in the last 4 days of class than I did in seven years on my own..."

RESERVATION FORM

Visit www.cdielectronics.com for the February dates of CDI Electronics Ignition Specialist classes or call 1.800.467.0982 for direct Customer Assistance about the class.
